ABSTRACT

The aim of the Art Gallery is to provide the platform for Artist. Online Art gallery project exhibits the works of many artists. Each artist is given a specified space on the online webpage. The artists are charged for the space allotted to them on monthly Or Yearly basis. The charges vary in different months the charges are Rs 200 per month. Each Artist Upload Their Art and Add their price and Admin will be add this Art and price an our webpage for anyone customer visit webpage see the art and if users are interested then buy this art. Each Artist exhibit has a name and style of painting. The Users can be bought Art by the online customers who need to register with the art gallery. On receiving the full payment, the painting is sent to the customer. The art gallery is where the arts or art crafts of the artists can be displayed for the visitors' view. And Every year one time Auction between Artist. The "Online Art Gallery" has been developed to override the problems prevailing in the practicing manual system. This software is supported to eliminate and in some cases reduce the hardships faced by this existing system. Moreover this system is designed for the particular need of the company to carry out operations in a smooth and effective manner. Every organization, whether big or small, has challenges to overcome and managing the information of Payment, Arts, Bill, Customer, Stock. Every Online Art Gallery has different Arts needs, therefore we design exclusive employee management systems that are adapted to your managerial requirements. This is designed to assist in strategic planning, and will help you ensure that your organization is equipped with the right level of information and details for your future goals. Also, for those busy executive who are always on the go, our systems come with remote access features, which will allow you to manage your workforce anytime, at all times. These systems will ultimately allow you to better manage resources.

I. INTRODUCTION

Online Art Gallery can lead to error free, secure, reliable and fast management system. It can assist the user to concentrate on their other activities rather to concentrate on the record keeping. Thus it will help organization in better utilization of resources. The organization can maintain computerized records without redundant entries. That means that one need not be distracted by information that is not relevant, while being able to reach the information. Online Art gallery project exhibits the works of many artists. Each artist is given a specified space on the online webpage. The artists are charged for the space allotted to them on monthly Or Yearly basis.
